^[1] This exhibit sets forth a cash flow forensic analysis of the specified account(s) from March 1981 up to December 11, 2008, as applicable. Although records of BLMIS Customer Statements exist back to November 1978, the attached cash flow analysis provides the accountholder(s) with a presumption that the cash and historical cost of the securities reportedly held in the account(s) as of March 31, 1981 were principal and did not include any fictitious profits. See MF00095506 for a copy of the March 1981 Customer Statement for BLMIS Account 1B0033 which demonstrates the amount granted as the principal credit as of April 1, 1981 for BLMIS Account 1B0033. BLMIS Account 1B0033 was known as BLMIS Account 100218 at this time. The amount of principal credit granted to BLMIS Account 1B0033 is calculated using the following formula: [New Balance] + [Value of Long Security Positions] - [Value of Short Security Positions]. Based on the March 1981 Customer Statement for BLMIS Account 1B0033 the calculation is as follows: [259,375.14 + 249,982.75 - 259,357.89 = 250,000.00].

^[2] Although BLMIS Customer Statements reflect that a larger transfer was made out of the account on this date, a portion of the "transferred" funds consisted of fictitious profits which were never achieved and thus could not have been transferred. Accordingly, only the principal remaining in the account was transferred out of the account on this date.

^[3] Although BLMIS Customer Statements reflect that funds were transferred out of this account on this date, these funds consisted entirely of fictitious profits which were never achieved and thus no funds were actually transferred out of the account on this date. Accordingly, the account balance has remained unchanged.

^[1] Although BLMIS Customer Statements reflect that a larger transfer was made into the account on this date, a portion of the "transferred" funds consisted of fictitious profits which were never achieved and thus could not have been transferred. Accordingly, only the principal remaining in the originating account was transferred into this account on this date.

^[2] Although BLMIS Customer Statements reflect that a larger transfer was made out of the account on this date, a portion of the "transferred" funds consisted of fictitious profits which were never achieved and thus could not have been transferred. Accordingly, only the principal remaining in the account was transferred out of the account on this date.

^[3] This transaction was cancelled and ultimately excluded from the population of Profit Withdrawal Transactions as defined in the Expert Report of Matthew B. Greenblatt regarding the Analysis of the Profit Withdrawal Transactions, dated July 14, 2015, No. 08-01789 (SMB), ECF No. 10663.

^[4] Although BLMIS Customer Statements reflect that funds were transferred out of this account on this date, these funds consisted entirely of fictitious profits which were never achieved and thus no funds were actually transferred out of the account on this date. Accordingly, the account balance has remained unchanged.
